ASSIGNMENT 4 - OUTPUTS

Database changed

QUES 1:

```
+----------------+
| number of jobs |
+----------------+
|              6 |
+----------------+
```

1 row in set (0.00 sec)

QUES 2:

```
+--------------+
| total salary |
+--------------+
|    149400.00 |
+--------------+
```

1 row in set (0.00 sec)

QUES 3:

```
+----------------+
| minimum salary |
+----------------+
|        4200.00 |
+----------------+
```

1 row in set (0.00 sec)

QUES 4:

```
+----------------+
| maximum salary |
+----------------+
|        9000.00 |
+----------------+
```

1 row in set (0.00 sec)

QUES 5:

```
+----------------+---------------------+
| average salary | number of employees |
+----------------+---------------------+
|   19333.333333 |                   3 |
+----------------+---------------------+
```

1 row in set (0.00 sec)

QUES 6:

```
+----------------+---------------+--------------+----------------+
| highest salary | lowest salary | total salary | average salary |
+----------------+---------------+--------------+----------------+
|       24000.00 |       4200.00 |    149400.00 |    9960.000000 |
+----------------+---------------+--------------+----------------+
```

1 row in set (0.00 sec)

QUES 7:

```
+------------+---------------------+
| job_id     | number of employees |
+------------+---------------------+
| AD_PRES    |                   1 |
